Scorpion Vision Starter Kit

The perfect introduction for jump-starting <u>your own</u> Vision System - includes Scorpion Vision Software , a Sony XCD-V50 black & white camera and two days training

Scorpion Vision Starter Kit – approved by Sony, contains everything you need for bringing your Scorpion Vision project to life. The kit includes a Scorpion Enterprise software license combined with the new high quality Sony XCD-V50 camera (VGA resolution) and a 2 days training course where you learn how to use Scorpion Vision Software®. A standard and configurable user interface paired with innovative and easy-to-use and robust imaging tools quickly enable you to plan, implement and test complete vision systems.

Bring your own notebook to the training course and return to the production site with a framework well suited for your particular real-world application. No programming skills are required, but general engineering knowledge and modest experience with photography issues such as light assessment and lens manipulation will smooth the start up phase.

The Sony approved Scorpion Vision Starter Kit consists of the following items:

Product type no	Product	Camera	Lens	Extra accessories	Unibrain Fire-I SW pack v3.0	Price Euro
20-052	Sony Scorpion Vision Starter Kit	Sony XCD-V50	12 mm	1 x 4,5m cable	Included	5,000

Standard accessories for Scorpion Vision Starter Kit are: a 128 Mb USB Memory stick and a FireWire adapter (PCI or PCMCIA card). When PCMCIA FireWire adaptor option is selected, a Unibrain repeater and a 12-volt power supply are included.

Also included is a 2 days introduction course for one person. More information about Scorpion training is available on our web site www.scorpionvision.com.

To order a Scorpion Vision Starter Kit, attend a training course or get more information, please contact us or any of our representatives on e-mail, phone or send the form below on fax.
