# Sony Scorpion
# 3D Robot Vision

Scorpion Vision Software® is the perfect companion to Sony Smart Cameras, digital cameras with USB, FireWire and GigE interfaces and 3D Image sensors.

With Scorpion Vision Software® 6.0 the most advanced 2D and 3D solutions are made without any kind of programming. The 3D module has more than 30 new point & click tools to support 3D camera calibration, 3D stereo vision, 3D laser profiling and true 3D point cloud processing analysis and manipulation.

Everything is visualized with the integrated and complete set of 3D visualization features.

## SCORPION
### VISION SOFTWARE®

**Scorpion Vision Software**® is made by Tordivel AS.

Digital cameras connected to PCs via standard interfaces like FireWire has created a major shift in the vision industry from proprietary systems to open software solutions. Tordivel's strategy is to provide the industry with independent software for configuration, operation and surveillance of vision systems utilizing industry standard components and communication interfaces.

Scorpion Vision Software® is distributed through a global network of partners. They provide local training and support for all types of users.
